

LOKA NEURON

Full stack Module Hardware > Firmware > Cloud

The heart of a new generation of devices that will take the Internet of Things to the next level. Packed with functionality (temperature sensor, accelerometer, Sigfox, Wi-Fi and BLE connectivity), its small size and ability to communicate in all the Sigfox regions makes it the next big thing in the industry. Includes LOKA proprietary firmware and LOKA Mind connection.

SPECIFICATIONS

*(Available in 2019)

Connectivity

Sigfox, Wi-Fi, Bluetooth

Sensors

Temperature; Accelerometer;

Features

Power: 2.4 to 5.5 V | Ports: Analog Input / Output, Digital Input / Output, SPI, UART | Geolocation algorithm for Wifi, BLE, GPS | Rules Engine for sensor monitoring, logging and data offload

Dimensions

L: 23mm; W: 19mm; H: 4mm

Sigfox Regions

Auto switch in all RCZ Regions

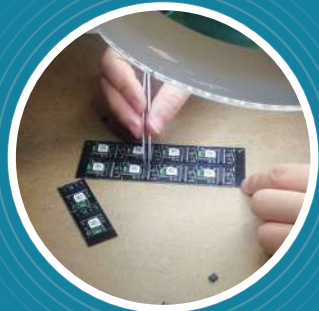

FEATURES

**Geolocation algorithm
for Wifi, BLE, GPS**

**Rules Engine for
sensor monitoring,
logging and
data offload**

Internal Memory
